### Maximize Benefits, Minimize Costs

Document Imaging Solutions, LLC is a Certified LaserFiche VAR. Using LaserFiche software, we can help you take control your case management and paper related problems. Gain the power of LaserFiche on a case-by-case basis. Our software helps firms both large and small with document preparation and distribution for legal proceedings. Using our technologically advanced software - scan, OCR (for word search) bates number and burn your documents into CD format -- mountains of paper become one thin disk. Forget the hours needed to manually bates stamp documents. It's now automated. Our software can free up time for your paralegals, secretaries and other staff to concentrate on important issues instead of paper juggling.

### Superior Software, Superior Results

LaserFiche is unique in the field. We offer full text search capability. Our software can search for any reference such as a name, number, string of text and more. Attachment of note cards, templates, redaction, highlights, stamps and a host of other tools are available. Paper Photographs, charts, graphs, architectural drawings, digital photographs, X-rays, EEG graphs can all be archived and distributed using our software. In fact, your sources are almost unlimited. Even automatically Bates number! You can take all the case records to court on a laptop. Send a CD with case records to expert witnesses. Using our search engine you can do in hours what once took days.

### Document Preparation Highlights

- Bates Stamping is automated
